AMAZON RECRUITMENT BURSARY

ADMINISTERED BY STUDYTRUST

Unlock Your Potential with AWS' Bursary Program for Aspiring Software Development Engineers

Eligibility Criteria

- **Field of Study:** Pursuing undergraduate degrees in fields related to Computer Science, Computer Engineering, and Software Engineering. Specializations in Machine Learning, or Artificial Intelligence are also eligible. Science and Engineering students in other fields with excellent coding skills will also be considered. Use your "Personal Statement" requested in the online application form to detail your coding skills and experience.
- **Academic Achievement:** Current second year students who are consistently obtaining an average of 65% and above.
- **Education Completion:** Students should plan to complete tertiary education (Honours level or NQF level 8) by the end of 2027.
- **Career Plans & Motivation:** Applicants must display a keen interest in the field of software development engineering and Amazon. During the internship, they will be assessed for a full-time permanent role with AWS to start upon completion of their studies.
- **Availability:** Applicants must be available to start full-time permanent employment with AWS in January 2028, contingent upon receiving a job offer after the internship assessment.
- **South African Universities Only.**

**Closing Date
30 September 2025**
